

OUR DREAM – The Legacy Continues

It is the dream of all stakeholders that the students of St Andrew High School for Girls will continue to become leaders in the society, maintaining a tradition of excellence, being socially aware and involved citizens with strong, spiritual and moral values and contributing positively to the strengthening of the nation.

We are assured the future of St Andrew High School, lies in the establishment of a Foundation, which will enable the school to fund its annual budget, oversee the various scholarships now offered and eventually be truly independent again.

The St Andrew High School Foundation was incorporated in September 2005.

The Foundation's target for the next five years is J\$100,000,000.

The St Andrew High School Foundation will consist of two funds -

- **The Endowment Fund and**
- **The Special Projects Fund**

St Andrew High School intends to -

- Provide a high quality teaching and learning experience to each student
- Deliver a relevant curriculum
- Acquire and maintain technologically advanced facilities
- Recruit and retain competent staff, who are trained in current trends in their relevant areas

Here are a few ways in which you can help to reach this target in 5 years

• Contribute to the Foundation

You can make your contributions monthly, quarterly, annually or a single contribution (Pledge form attached)

• The Foundation as a beneficiary

- Name the Foundation as a beneficiary in your will
- Name the Foundation as the beneficiary of a Life Insurance Policy

• Transfer ownership of assets to the Foundation

If you have stocks, bonds, government securities or real estate that you would like to donate, you may transfer ownership to the Foundation

• Art and Jewellery

These can be donated to be sold at a later date.

JOIN THE DREAM – Continue The Legacy

Let us join other stakeholders and the highly competent and motivated staff in providing a secondary education for the students in a Christian environment – keeping in mind the four fold development – physical, mental, spiritual and social – so as to equip them with healthy bodies, well trained minds, religious principles and ideals, so that they may serve their country as disciplined citizens and to enable them to earn a living and to live a "Life More Abundant"

I am pleased to support "The Dream" with a gift or pledge -
